

TREE TRIMMING NOTIFICATION

May 25, 2016

Meridian Ave N Paving and Safety Improvements Project

Crews working for the Seattle Department of Transportation (SDOT) expect to begin construction on Meridian Ave N between N 103rd and N 112th streets as soon as the week of May 31. Beginning as early as this week, certified arborists will trim back large tree limbs to allow passage of construction equipment while avoiding damage to trees. To accommodate the equipment, tree limbs that are less than 14 feet high and extend over Meridian Ave N need to be trimmed.

If you have questions or concerns, please contact the project outreach team. We will follow up soon with overall construction details. To learn more about the project background, please see the attached fact sheet.
